

I am writing to express my gratitude for the important contribution and positive influence that Glass House has made in my life.

Before coming to Glass House, I experienced several failed attempts at achieving sobriety and I was spiritually bankrupt. Glass House has provided an excellent environment for me to learn to live a sober life and facilitated my move to be much closer to God.

An important influence in successfully bringing sobriety and God into my life has been the Director of Glass House, Carol A. Glass. Carol demonstrates the great power of example by living a meaningful sober and deeply spiritual life, always seeking guidance from God. Since coming to Glass House, I have learned more about God and the central role He can play in my life, than in all my 60 plus years before coming to Glass House.

At Glass House, an important element in maintaining my sobriety has been the camaraderie and obligation I feel toward my fellow sober housemates. My faith continues to grow by my current enrollment in a weekly workshop entitled "Walking Your Faith Life Skills" as well as attending a weekly bible study. Both activities are facilitated by highly qualified individuals who truly know the bible.

During my time at Glass House, I have learned to face life's challenges while living sober and with God in my life. For those individuals willing to make a commitment, the Glass House provides an excellent opportunity for sobriety and spiritual growth.

Sincerely,

A Grateful Glass House Resident
