I'm grateful that when I was
homeless, hopeless and lost, I found
a home here at Glass House. I've been
here 10 months and I feel safe
for the first time in forever.

My appreciation to the Glass House

I'm grateful for Carol Glass and the Glass House for being able to help me at a time of need and to supply me with a place to live and acceptance for being a sex offender.

Being a sex offender, it's very hard finding a place to live. Most places don't want to help or turn you down for a home plan but the Glass House didn't. They gave me a home plan and a place to live. I believe if it wasn't for them I would still be in jail.

The Glass House accepts you with open arms and understanding that you can be a better person. With their guidance, I overcame a lot of my obstacles of reentry. They helped me tremendously and for what they did for me, I would go out of my way to give back. I don't think I could've asked for a better place to live or a better support group.

Thank You Glass House for being there for me!

Chris

What the glass house has done for me

The Glass House helped my family when time where down and out, the glass was here and if they weren't my family would have been spilt up and I didn't want that it happens to us. Glass house was also here for me when I had a really bad medical upset. I made some new friends here at the house, which for me it's hard to do because I don't trust some people. But with being here I have been coming out of shell to start to trust people. Here at the glass house it make me feel like I am in a friendly setting and I like that. And I like how the glass house treat it resident with respect. I been in some place that don't do what the glass house has done for my family. I still would like to work on my family here at the glass house and work on some other things at while here. I think that I can do it with all the help we have here at the glass house. I would change anything about being here at the glass house.
